PROFILE

Recently completed 8th semester, having one year experience in web development technologies. Action believer and self learner. My mindset is to learn continuously, improve skills and stay up-to date with the latest industry technologies in order to deliver the best possible outcome.

WORK EXPERIENCE

TechOverflow | Front-End Developer Intern

Feb 2023 - May 2023

Led and managed by senior developers and designers to create responsive and user-friendly websites using React JS, Vue JS, Next JS, Tailwind CSS, and Bootstrap. Expanded knowledge of front-end development technologies. Successfully created Techoverflow website as a solo project and worked on two more client projects during my internship.

EdTest Testing Services | FYP Student

Sep 2022 - July 2023

Worked as a full stack developer. Gained exposure of working with different technologies which includes (MERN Stack, Next JS, Tailwind CSS, Git, Heroku, Vercel, Cloudinary etc.). Its an ongoing project. My responsibilities includes creating custom api's, creating and maintaining user design, quality assurance, implementation of search filters, Implementation of Sign Up, Sign In, forgot password functionalities.

PROJECTS

Education Testing Service (MERN, Next JS, Redux saga, git, cloudinary, bootstrap).
